

Mobile Guarding Patrol Inspections

Round-the-Clock Surveillance, Wall-to-Wall Protection with a Better Bottom Line

Mobile Guarding is an effective and affordable alternative for facilities that depend on a friendly face and human judgment. Through a combination of state-of-the-art technology, remote monitoring centers and highly responsive Securitas USA Mobile officers, we can provide round-the-clock coverage of your facility without round-the-clock payroll.

With Mobile Guarding Patrol Inspections, your facility is under constant watch by the highly trained staff at our off-site monitoring centers. Strategically placed cameras provide a continual video feed of your facility and perimeter, verifying not just safety and security, but also employee compliance to company policy and procedures. Meanwhile, Mobile officers will make regular visits and can check in on employees, monitor hot spots or adjust equipment as desired. This combination of services offers you a comprehensive approach to patrols customized to fit your needs as well as your budget.

Mobile Guarding changes the way we think about security as well as its price tag, allowing clients on even the tightest budget to fully leverage Securitas USA's vast resources and industry knowledge. Mobile clients have access to the same personable and professional officers, cutting-edge technology and dedicated customer service they've come to expect, while only having to pay for the services they utilize.

Advantages of Mobile Guarding Patrol Inspections:

- Remote surveillance through cutting edge technology provides 24/7 coverage for your facility and can verify employee compliance as well as safety.
- Uniformed Mobile officers make routine visits and can cover employee breaks, provide escorts and make adjustments to equipment as necessary, at a fraction of the cost of a full-time officer.
- Should there be a security breach or threat, the off-site officer can summon local law enforcement, emergency personnel or your Mobile officer with a touch of a button.
- Multiple locations can receive synchronized service, whether separated by a couple of blocks or several states.
- Flexible and cost-effective - you only pay for the services you utilize.

How Mobile Guarding Patrol Inspections Work:

- Securitas USA professionals perform a detailed security analysis and work with you to create a security protocol based on a custom-tailored combination of state-of-the-art-technology, round-the-clock monitoring and regularly scheduled inspections at random intervals.
- Our experts can install, program and monitor any needed equipment to help protect your perimeter and facility, or utilize your existing surveillance system.
- Highly trained Securitas USA officers are posted at remote monitoring centers and respond promptly to any security breach or threat. These officers can provide access control, make announcements and summon emergency response.
- Real-time computerized reporting instantly alerts you to any security issue.

A knowledge leader in security

Mobile Guarding by Securitas USA gives you comprehensive security in innovative and cost-effective packages. Cutting edge technology and software combined with specially trained Mobile officers creates real-time security that helps prevent incidents, optimizes security officers' time and reduces costs.
