

Remote Employee Escort

Providing for the Safety of Your Employees

Securitas USA video monitoring means “no surprises” for employees or owners. Our remote monitoring center activates cameras, scans premises and parking lots for unauthorized activity and potential threats, advises status and can deliver an audible message that security is monitoring in real-time.

Is it getting dark earlier? Are employees arriving earlier in the morning and staying later in the evening due to increased responsibilities or seasonal workloads? Have there been recent problems in the area? Do operational procedures

require employee escorts in highly sensitive areas of the facility? Securitas USA Remote Employee Escort utilizes live video surveillance with audio notification to provide a safe environment as employees arrive and depart the area.

Advantages of Remote Employee Escort:

- On-demand response to requests from employees and contractors
- Helps to promote a safe and secure environment
- Cost-effective even if you have many sites in remote locations
- Enhances the productivity of your security officers
- Access to cutting edge technology with no new major investment
- Part of a comprehensive security service portfolio

How Remote Employee Escort Works:

- Expert consultation to find best camera locations and angles
- Cameras and software connect to a 24/7 monitoring center
- Highly trained professionals remotely respond and process requests for escorts in or around your facility
- Response can include one- or two-way audio for live intervention
- Evidence is documented if an incident occurs
- Open platforms allow existing equipment to be utilized – often in combination with cutting edge technology

Partner network brings together industry's best

Securitas USA has global agreements with some of the security industry's top innovators. This allows us to deliver the best possible technology and services in simple, cost-effective packages.

A knowledge leader in security

Remote Guarding, managed by Securitas USA, gives you state-of-the-art security in innovative and cost-effective packages. Cutting edge cameras and software create real-time security that helps prevent incidents, optimizes security officers' time and reduces costs. Securitas USA can design, install and maintain the technology equipment used for this service.

Securitas USA offers a broad range of services that include specialized guarding, technology solutions, mobile guarding and corporate risk management; we customize offerings that are suited to the individual customer's needs. From small businesses to large corporations, our more than 85,000 employees make a difference every day.
